

Ametek Mpc 15 Bar Marine Pressure Calibrator Kit Wp2110851

The **Ametek MPC 15 Bar Marine Pressure Calibrator Kit WP2110851** is a precision testing instrument designed specifically for marine and industrial pressure calibration applications. Manufactured by Ametek Denmark A/S under the Jofra Instruments brand, this calibrator provides accurate pressure measurements up to 15 bar (200 psi), ensuring reliable verification and maintenance of marine pressure systems. Powered by a single 9V alkaline battery and consuming just 150 mW, the MPC 15 Bar is portable and efficient, making it ideal for field service and calibration tasks onboard vessels and in demanding industrial environments.

Key Features:

- Marine-grade pressure calibrator capable of measuring up to 15 bar (200 psi)
- Compact, battery-powered design for field portability and ease of use
- Low power consumption with 150 mW wattage for extended operation
- Manufactured by Ametek Denmark A/S, Jofra Instruments, known for precision calibration tools
- Supports vacuum measurement down to -20 bar, offering versatile calibration functionality

Specifications:

- Model Number: WP2110851
- Type: MPC 15 Bar Marine Pressure Calibrator

- Power: 1 x 9V Alkaline Battery
- Power Consumption: 150 mW
- Maximum Pressure: 15 bar / 200 psi
- Additional Type: System VP, Vacuum -20 bar
- Weight: 3.640 kg
- Includes: Janatics Pneumatic One Touch Male Connector, Size Dia 8 x 1/4 inch
- Origin: Denmark

The **Ametek MPC 15 Bar Marine Pressure Calibrator Kit** delivers trusted accuracy and durability for marine and industrial pressure system maintenance. Its portable design combined with precision calibration capabilities makes it an indispensable tool for technicians and engineers ensuring optimal system performance and safety in critical marine environments.
