

Ako P-5000-49 Commercial Front Load Washer Timer

The **AKO P-5000/49 Commercial Front Load Washer Timer** is a precision electromechanical timer designed for use in heavy-duty commercial washing machines. Manufactured by AKO, this model—**Typ: P-5000 /49**—is widely used in industrial laundry systems to manage wash cycle durations with high accuracy and reliability.

Key Features:

- Model: P-5000/49
- Type: AMY8
- Voltage: 220/240V~
- Frequency: 50/60 Hz
- Contact Rating: 15A (2.5A)
- Application: Front-load commercial washer timer controller

Specifications:

- Function: Controls wash cycle timing and switching
- Configuration: Electromechanical rotary timer
- Build: Durable industrial-grade construction for prolonged use

- Weight: 1.050 Kg
- Compatibility: Suitable for 220V~ commercial laundry equipment

Engineered to withstand the demanding cycles of commercial laundry operations, the **AKO P-5000/49 Timer** ensures reliable control over wash processes. Its robust build and consistent timing performance make it a trusted choice for laundromats and industrial washers requiring dependable cycle management.
