

## Bernstein C2-u1Z Limit Switch

The **Bernstein C2-U1Z Limit Switch** is a compact and precision-engineered control device ideal for industrial automation systems. Designed to monitor position and movement, it ensures reliable mechanical feedback in machinery and safety applications.

### Key Features

- Snap-action mechanism for accurate switching
- High-performance under IEC/EN 60947-5-1 standards
- Durable design rated **IP30** for protected environments
- Rated for **AC15, 240V 3A**, suitable for standard control circuits

### Specifications

- Brand: **Bernstein**
- Model: **C2-U1Z**
- Part No.: **600.8101.001**
- Alternate Model: **C2-U1 A300**
- Compliance: **EN 60947-5-1, E123781, MC 165821**
- Electrical Rating: **AC15, 240V 3A**

- Ingress Protection: **IP30**
- Certification: **1B68, A300**
- Date Code: **05.17-H**
- Weight: **50 g**

Engineered in line with international standards, the **Bernstein C2-U1Z Limit Switch** is suited for applications requiring compact form factors and reliable operation in industrial settings.
