

Bauser 629 631 Hour Meter

Bauser 629 631 Hour Meter - 230V, 60Hz (New)

The Bauser 629 631 Hour Meter is a compact and reliable time-tracking device designed for monitoring operating hours of machinery and equipment. Operating at 230V and 60Hz, this hour meter provides accurate and consistent readings, making it ideal for maintenance scheduling and usage logging in industrial, commercial, and utility applications. Built with German engineering precision, the Bauser 629 631 is trusted for its durability and long service life.

Key Features:

- Precision hour meter for tracking machine run-time
- Operates on standard 230V, 60Hz power supply
- Easy-to-read numeric display for clear time monitoring
- Compact design for seamless panel or surface mounting
- Engineered and manufactured in Germany for high reliability

Specifications:

- Brand: Bauser
- Model: 629 631
- Operating Voltage: 230V AC
- Frequency: 60Hz

- Application: Industrial equipment, generators, pumps, compressors, HVAC systems
- Product Code: 3598
- Weight: 50 g
- Country of Origin: Made in Germany

With its dependable performance and straightforward installation, the Bauser 629 631 Hour Meter is a valuable tool for any operation that requires precise tracking of equipment usage, helping optimize maintenance intervals and improve operational efficiency.
