Bartec 05-0003-006500 Illuminated Push Button Red

The **Bartec 05-0003-006500 Illuminated Push Button Red** is a high-quality control switch designed for use in hazardous and industrial environments where safety and visibility are paramount. This red illuminated push button offers clear status indication, making it ideal for emergency stops, control panels, and operational signaling. Certified to rigorous international standards including ATEX, IECEx, and UL, it ensures safe operation in explosive atmospheres, complying with zones requiring gas and dust explosion protection. Manufactured by Bartec, a leader in industrial safety equipment, this push button combines durability with reliable performance.

Key Features

- Bright red illumination for clear, immediate visual feedback

- Certified for hazardous locations with ATEX, IECEx, and UL approvals

- Suitable for explosive gas (Ex e IIC Gb) and dust environments (Ex tb IIIC Db)

- Robust design for long-lasting operation in harsh industrial conditions

- Easy integration into control panels and safety systems

Specifications

- Model: 05-0003-006500

- Manufacturer: Bartec

- Color: Red (Illuminated)

- Certifications: II 2G/D Ex e IIC Gb, Ex tb IIIC Db

- Certification Numbers: CML 13 ATEX 3010 U, IECEx CML 14.0005U, UL-BR 14.0240U

- Weight: 50 g

The **Bartec 05-0003-006500 Illuminated Push Button Red** offers reliable, safe operation with enhanced visibility for critical control functions in hazardous areas. Engineered to meet stringent international safety standards, it provides peace of mind and operational excellence in explosive atmospheres. Perfect for use in industrial automation, process control, and safety systems, this illuminated push button is a dependable choice for demanding industrial environments.
